ABOUT

Full-Stack Engineer and DevOps enthusiast currently pursuing an undergraduate degree at the Rajarata University of Sri Lanka. Skilled in developing scalable web applications using modern **frontend and backend technologies, database management, and API development**. Passionate about DevOps practices including **containerization, CI/CD, and cloud deployment**. Seeking opportunities to apply technical expertise, contribute to innovative software solutions, and grow as a software engineer.

EDUCATION

Present

Bachelor of Information Communication Technology [BICTHons], Rajarata University of Sri Lanka
Expected Graduation 2027
Current GPA - 3.00+ (Credits -75): Reading

PROFESSIONAL EXPERIENCE

02/2026 – Present

Senior Technical Officer, FOT Media
Led technical operations and system optimization for media production. Directed the deployment and maintenance of professional cameras, drones, and audiovisual equipment.

10/2024 – 02/2026

Head of Social Media Management, FOT Media
Directed social media strategy, content creation, and campaign management to improve online engagement and audience reach.

CERTIFICATIONS

03/2026

Introduction to Kubernetes  , Simplilearn

03/2026

Docker Foundations Professional Certificate  , LinkedIn Learning

03/2026

Introduction to Kubernetes (LFS158), The Linux Foundation - Education

03/2026

Microsoft Project Step by Step: Planning for Successful Project Management, Microsoft Press

01/2026

Introduction to Devops Tools  , Simplilearn

PROJECTS

2025

Gas Leakage Detection System, ESP 32, Blynk
Developed an IoT system using **MQ2 gas sensor, Load Cell, and HX711** to detect gas leaks and monitor cylinder weight in real time. Implemented **Blynk-based alerts** with LCD display and buzzer notifications to enhance safety and prevent gas-related accidents.

2024

University Faculty Dashboard – Unified Student & Lecturer Portal  , Flutter, Firebase
Developed a cross-platform mobile application as a group project to digitize faculty operations. The system features separate, secure dashboards for students and lecturers, integrated with a central administrative control panel.

2023 – Present

IoT-Enabled Digital Oil Lamp for University Ceremonies  , ESP 32, Arduino
Developed a **smoke-free, fire-safe alternative to traditional oil lamps** for university auditorium events using IoT technology. Implemented a **dual-controller system (ESP32 web server + Arduino Mega)** for reliable hardware control. Built a **web-based HTML dashboard** enabling organizers to trigger lighting sequences remotely via smartphone or tablet.

2026	InoVoidBlog Modern Technical Blogging Platform <i>🔗 , JavaScript, PostgreSQL, Azure</i> Developed “InoVoidBlog,” a full-stack developer-focused blogging platform for technical knowledge sharing. Built a responsive frontend with Tailwind CSS & JavaScript , integrated with Supabase (PostgreSQL) for authentication and real-time database operations. Implemented CI/CD using GitHub Actions and deployed on Azure Static Web Apps , with features like threaded comments, reactions, and notifications.
2026 – Present	La Bella Cucina - Resturent Web <i>🔗 , HTML, JavaScript, Docker</i> Built a full-stack restaurant management web application with online ordering, reservations, and an admin dashboard . Implemented secure authentication, PayHere payment integration, and menu image uploads . The system uses Node.js, Express, PostgreSQL, and Docker with nginx for scalable deployment.

SKILLS

TECHNICAL SKILLS

- Programming Languages : JavaScript, Java, Python, PHP
- Frontend : Tailwind CSS, React.js, Bootstrap, HTML5
- Backend : Node.js, Express.js, REST API Development
- Mobile Development : Flutter, React Native
- Databases : MySQL, PostgreSQL, Firebase, Supabase
- DevOps & Cloud : Docker, AWS, Microsoft Azure, CI/CD
- Version Control : Git, GitHub
- APIs & Security : REST APIs, JWT Authentication, Postman
- IoT & Embedded : Arduino, ESP32, ESP8266
- Development & Project Tools : Jira, ClickUp
- AI Development Tools : Claude, Gemini, Antigravity
- Media & Creative Tools : Adobe Photoshop & Premiere Pro

SOFT SKILLS

- Problem-Solving
- Communication
- Adaptability
- Time Management
- Critical Thinking
- Agile Mindset
- Leardership

EXTRA CURRICULAR & VOLUNTEER EXPERIENCE

01/2024 – Present	ATIT -Association of Technology IT, Project Lead & Member Lead a Extru Exhibition projects within the association, Overseeing, planning, coordination and delivery of technical objectives.
07/2023 – Present	ROST - Robotic Society in Technology, Junior Treasury , Event Organizer , Project Lead Lead a Extru Exhibition projects within the association, Overseeing, planning, coordination and delivery of technical objectives. Managed event planning logistics and supported financial tracking and budgeting as Junior Treasurer.
10/2024 – Present	FOT Media, Senior Technical Officer , Head of Social Media Management Led the digital media team, managing social media strategy, branding, and audience engagement. Planned and executed content campaigns while analyzing platform performance to increase reach. Led technical strategy and system optimization for media production. Managed deployment and maintenance of professional cameras, drones, and broadcast equipment.
